

Press release - 24 June 2024

Auchan France strengthens its partnership with the Rocca group through the latter's acquisition of 18 Casino stores

On Friday 21 June, the Rocca group and Auchan France signed a unilateral promise to purchase with Casino with a view to selling Codim 2, which operates 4 hypermarkets, 9 supermarkets, 3 cash & carries and 2 drives in Corsica.

As part of the sale, the Rocca group has undertaken to take over all Casino stores in Corsica. They will be operated under the Auchan banner. The retailer is thus extending its partnership with the Rocca group and expanding in Corsica, where it previously operated 1 store based in Ajaccio, already operated by the same group.

The plan is to take over the entire Casino business in Corsica and all Codim 2 store and head office staff. The preservation of jobs and local economic activity in the region are indeed priorities.

The sale is expected to be completed after consultation with employee representatives and approval from the competition authorities.
