Auchan Retail acquires the Auchan stores in Corsica from the Rocca Group

Auchan Retail has reached an agreement with the Rocca Group to acquire the company Codim 2. Since October 2024, Codim 2 has operated 16 stores in Corsica under the Auchan banner, including 4 hypermarkets, 9 supermarkets, and 3 cash & carry stores. This acquisition also includes the takeover of the Auchan hypermarket in the Atrium shopping center in Sarrola Carcopino, which opened in October 2017 and was previously operated by the Rocca Group.

This operation will sustainably strengthen Auchan's presence in Corsica and continue its development to serve island consumers. With this plan to integrate these stores into its network, Auchan is choosing to commit to the region. The objective of this acquisition is to ensure the sustainability and development of these stores by injecting a renewed commercial dynamic adapted to the specific characteristics of the Corsican territory.
